STATS 205: Homework Assignment 6

Brian Liu 6/14/2019

Solution to Problem 1

```
library(datasets)
data(cars)
head(cars)
##
                   speed dist
## 1
                              4
## 2
                                  4 10
## 3
                               7
                                               4
## 4
                             7 22
## 5
                              8 16
                                 9 10
## 6
cars.supsmu = supsmu(cars$speed, cars$dist, bass = 0, span = "cv")
cars.supsmu2= supsmu(cars$speed, cars$dist, bass = 0, span = )
# library(ggplot2)
\# qplot(x = cars.supsmu\$x, y = cars.supsmu\$y)
